The regional railroad districts will prepare the collection points and transfer the locomotives and coaches there without delay. The sums of 2,900 eastmarks and 1,500 eastmarks are presumably required for the preparation of the collection points in Ducherow and Tantow, respectively. A special order will be issued concerning the execution of this work and the allocation of means. The locomotives will be preserved in accordance with previous orders. The locomotive equipment and tools which cannot be safely locked on the locomotives themselves will be stored in brigade cars marked with the corresponding locomotive number. Toolboxes will be sealed. (8) A detail of railroadmen who will be relieved on schedule every month will be organized for each column for guard details and careful maintenance work. (8)
